

GEOGRAPHY

Can you explore how humans are forcing great changes to our planet and ways we can halt this slide?

Watch David Attenborough's new documentary called 'A Perfect Planet'.

Then answer the questions below and make a poster!

You can watch the episode here on BBC iPlayer:

<https://www.bbc.co.uk/iplayer/episode/p08xc32c/a-perfect-planet-series-1-5-humans>

How does this link to your own knowledge and what you have learned in Geography lessons?

QUIZ:

1. Why are humans described as being so different from other species on Earth?
2. Why are high levels of Carbon Dioxide (CO₂) such a problem?
3. What threats are facing the Amazon Rainforest?
4. How is CO₂ impacting our oceans?
5. How has human activity impacted global currents in the oceans?

6. How can we reduce our use of fossil fuels?
7. What are zoos doing to prepare for a potential mass extinction event?
8. What are the messages of the young people in this programme?

Earth is the only living world we know of, but a new force threatens our perfect planet. That force is us. Humans are changing our planet so rapidly, it's affecting earth's life support systems: our weather, our oceans and the living world.

Create ...

A poster explaining the impacts of human activity on our planet.

Highlight what can be done to reduce the negatives.
